Pharmacy & Pharmacist KPI Tracker — May 2026 [*Nhà thuốc tháng 5 2026*](#)

- Built a scorecard giving management real-time visibility into each pharmacy's and pharmacist's sales performance, enabling early action on underperformance and letting stores track progress against monthly targets.

Standardized Retail Price List — 10,000+ SKUs [*Bảng giá Nhà thuốc 24H*](#)

- Designed the chain's first standardized listed-price framework, replacing an ad hoc pricing approach that lacked visibility into market pricing and category-level margins; prices were benchmarked against competitor pricing and input cost across both active and prospective product lines.

Business Performance Report — 2026 [*report dashboard 2024/2026*](#)

- Built a daily/monthly tracking report covering revenue, transaction volume, average bill value, and growth trend by store, enabling early detection of performance issues and informing optimization recommendations.

B2B Opex-per-Order Model [*opex per order*](#)

- Modeled total operating cost per order for a new B2B business line to finalize target margins ahead of launch.

Monthly Promotion Campaign — January 2026 [*January 2026 promotion campaign*](#)

- Supported the Marketing team by selecting the core product list for ads and landing-page design, and proposed post-promotion pricing that protected margin while staying competitive enough to drive customer demand.
